

Child Protection & Intervention Policy

Board of Directors NSW Basketball Association

REVISED: 27 Jan. 06

The BNSW Board acknowledges that the issue of child abuse is a complex problem that has an impact on all areas of society, including participation in sport and recreation activities.

The Wood Royal Commission into the NSW Police Service, led to increased community awareness of the significant number of child sexual assaults and incidents of abuse which occur. It also highlighted the need for the development and implementation of strategies to protect children from abusive situations.

Protecting children from abuse is a responsibility that we must all undertake. Through the implementation of strategies that assist in preventing child abuse from occurring, NSW Basketball Association Limited has taken a pro-active role in relation to child protection and intervention. These strategies will help to foster a safe and positive environment for children and young people to participate in physical activities.

In addition, development of Child Protection and Intervention Policy and Guidelines provides the Organisation with an excellent risk management tool for developing prevention strategies and for the effective management of child abuse issues within sport.

Information contained in this document will create a framework and provide direction for staff, officials, coaches, volunteers, members and parents of children and young people involved in NSW Basketball Association Limited _____, and affiliated regional and local clubs. It will help deliver a consistent approach to child abuse prevention at all levels of the sport and recreation industry.
